Year 3
Spring Term Two Homework Project

Science – Biology
'How do plants grow?'

I would like you to create your own plant growth investigation:

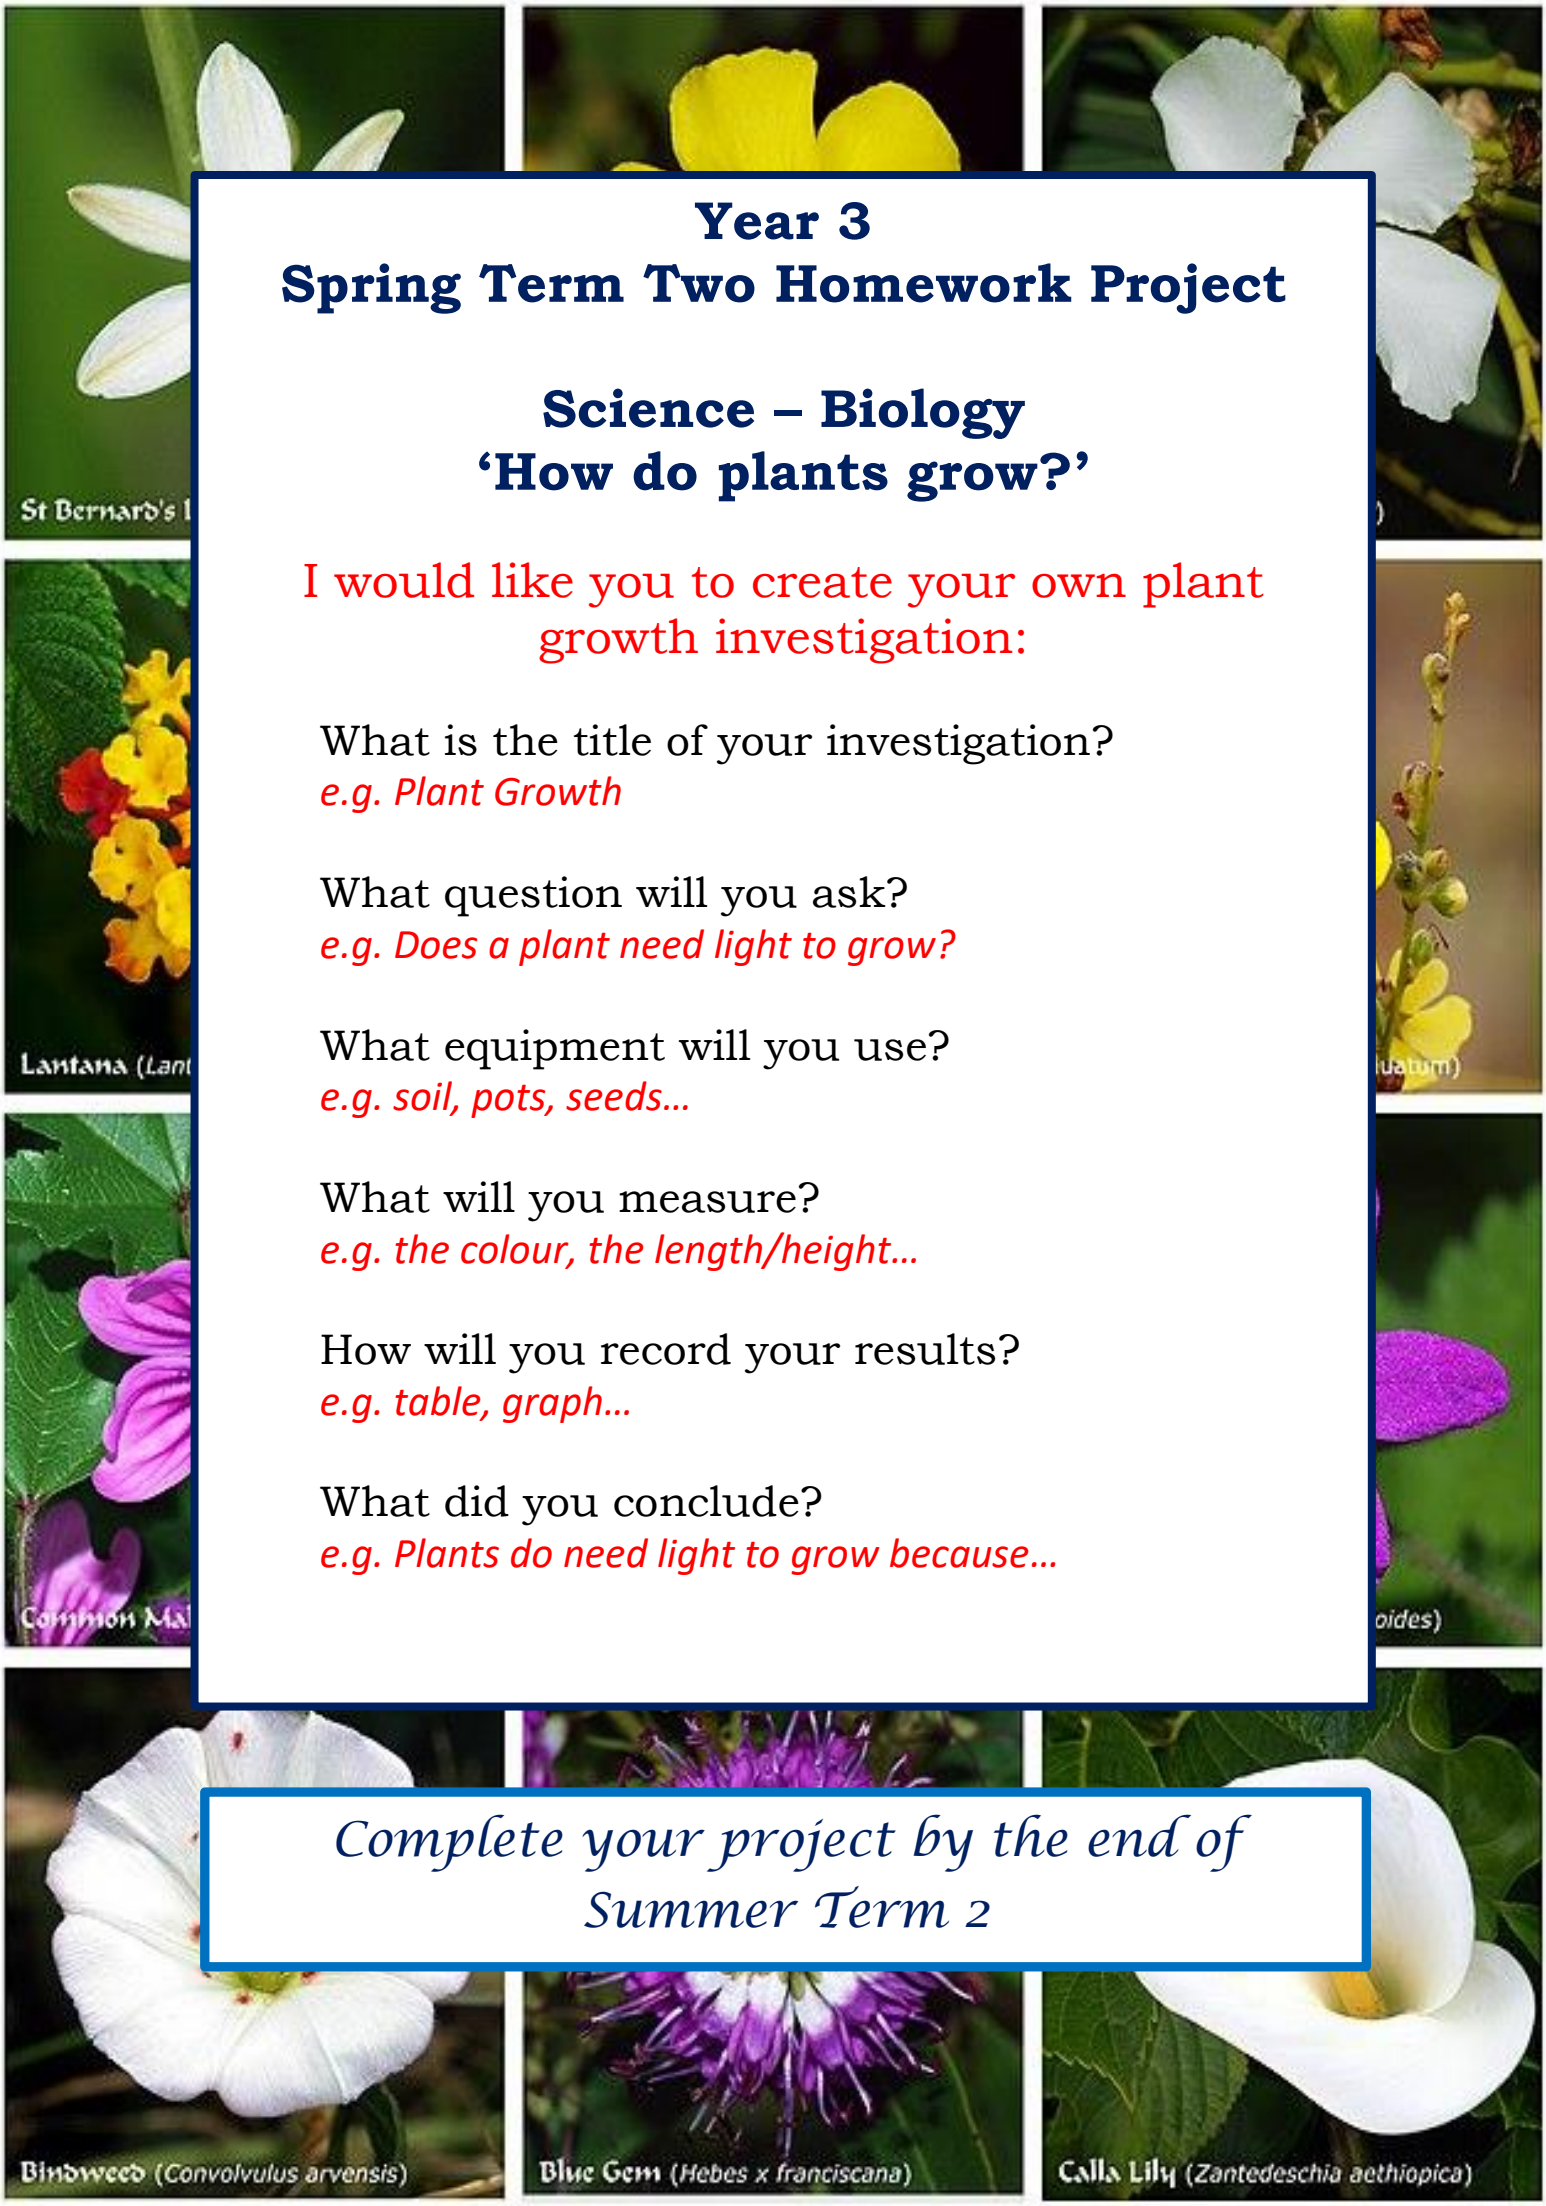
What is the title of your investigation?
e.g. Plant Growth

What question will you ask?
e.g. Does a plant need light to grow?

What equipment will you use?
e.g. soil, pots, seeds…

What will you measure?
e.g. the colour, the length/height…

How will you record your results?
e.g. table, graph…

What did you conclude?
e.g. Plants do need light to grow because…


Complete your project by the end of Summer Term 2
