Online Safety information for parents

Our pupils are growing up in a world of an ever-changing digital world. Being online is an integral part of young people's lives.

The internet and online technology provide new, exciting opportunities for young people's learning and development, but it can also expose them to new types of risks.

E-safety forms a fundamental part of Wardley CE Primary School's safeguarding and child protection measures.

Pupils are taught to use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify where to go for help and support and inform them of ways to report their concerns about content and contact.

Useful resources and links

We understand that much of our pupil's use of the internet will occur at home, away from the school filters.

Below, you will find links to useful websites, which provide advice and resources, that you may find useful when navigating the issue of online safety with your child.
