

Autumn Term Two Homework Project North and South America

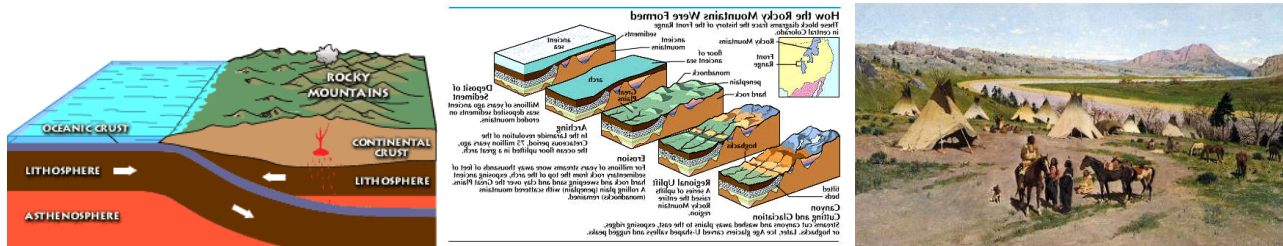

It is time to get creative year 4. I would like you to use materials that you have at home to create one of the following:

1. Make a model of the Amazon Rainforest/ Amazon River.

Or create your own idea as long as it is related to North and South America!

2. Create a poster or PowerPoint about the Rocky Mountains, how they were formed or the people that live there.

3. Create a drawing/map of America- labelling the equator, the two hemispheres and the tropics.
