

# Introducing the Student Centre

## Weekly Award

Monitors your child's weekly achievement

Motivates your child to gain maximum points to appear on the Hall of Fame.

Certificates are awarded for gaining 1000 points a week.

1000 points - 1 bronze certificate  
5 bronze certificates - 1 silver certificate  
4 silver certificates - 1 gold certificate

## Live Mathletics

Helps your child to improve mental maths skills

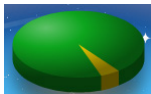

Fast-paced Live Mathletics games allow children to race against other children from around the world.

Ten levels of difficulty allow children to really challenge themselves and improve their mental arithmetic.

## Improve

Celebrates progress

Gold Bars are collected for achieving over 85% in curriculum activities and is an excellent indicator of a good understanding of a concept.

The Gold Bar Status shows how many activities have been completed and how many remain.

## Personalise

Gives your child ownership of their learning environment

Your child can earn credits by beating their personal best score. These can be spent on specific items in the facemaker shop.

The My Profile icon allows access to the facemaker and further personalisation.

## Curriculum Activities

Engages your child in tackling maths at an appropriate level

The support function encourages your child to work on more difficult calculations.

The Something Easier or Something Harder activities allow your child to access curriculum activities from the year below or above respectively.

Problem Solving Games encourage children to apply mathematical knowledge.

## Explore

Inspires independence in learning

The Animated Maths Dictionary covers all mathematical vocabulary terms.

Concept Search explains the full range of mathematical terms with interactive examples.

## Times Tables Toons

Learning through fun songs

Max the Cat and the Times Tables Toons band lead students through the times tables.

Every table has an engaging animated story and catchy tune.
