

Year 6

Autumn Term One Homework Project

World War II

It is time to get creative year 6. I would like you to use materials that you have at home to make one of the following:

1. Make a model of an Anderson Shelter and explain how they would have built one.

2. Research one of the key events from WWII and create a poster or Power point presentation about your findings.

3. Create a world map showing the allies and the axis.

Or create your own idea as long as it is related to WWII.

I look forward to seeing your amazing projects by **Wednesday 15th October.**
