

# SCHOOL COUNCIL NEWSLETTER – 04.02.20.

## SPRING TERM ONE Dreams & Goals.

Our school council work this half-term was linked into our school motto that 'We can do all things' and our PSHE topic on dreams and goals. We visited all the infant and junior classes to deliver a school council act of collective worship on this theme. We thought about what our ambitions are for the future and how school can help equip us to reach our goals. There was lots of good discussion with the children about this.

All the children filled out a slip to show their teacher what they want to be when they are older and the skills they think they will need to develop to get there.

The classes also came up with lots of good ideas about how school can help prepare them for their dream jobs.

Y6 ideas:

- School provides us with a good education.
- School should give us more opportunities to explore different professions.
- School should arrange for people to come in and talk about their jobs. They could tell us about what they do and what qualifications they need.

Y5 ideas:

- School should let us research about our goals.
- We could learn about things by volunteering.
- School should ask people to come in to speak to us about their jobs.

Y4 ideas:

- We must work hard, follow the school expectations and try our best.
- We should listen to advice and practice the skills we need to achieve our goals.
- School can explain how our lessons will help us when we grow up.

Y3 ideas:

- School should invite people in to talk to the children about their jobs.
- School should give children the chance to practise the skills that they will need for a job.

Y2 ideas:

- Invite people into school to talk to the children.
- Talk to the children about different sorts of jobs

Y1 ideas:

- School give children help to get better at things – especially if they are finding it tricky.

It is clear from the work of the school council that our children are really keen to learn more about the sorts of jobs that people have and what skills they need for them. We will look to build on this idea in the future. We will also be making it clear in lessons how the skills that they are learning can link into jobs when they are older.
