24<sup>th</sup> April 2020

Dear Parents/Carers,

## Re: Summer Term Update 2.

Hope you are all safe and well.

As we go on through the summer term, I will be sending out these regular updates to you with information about what school is doing and ideas about how to support your children at home.

These letters will be emailed to everyone, and they will also appear in the news items on the class website pages.

### KEEPING IN TOUCH CALLS

The class teachers will be making keeping in touch phone calls from school to the parents and carers of the children in their classes over the next few weeks. We know what a challenging time this is for everyone, and we just want to make these calls to keep in touch with you and check on how things are going.

### ONLINE SAFETY TIPS

We are aware that in the current situation the children might well be spending more time online. Whilst there are lots of great resources, activities and games that they can access, it is also important that they are doing so safely. To support you with this we are sending out an attachment about online safety tips – called the Thinkuknow parent help sheet. This has lots of really useful, practical ideas about how you can support your children in being safe when they are online.

### MATHS NO PROBLEM LEARNING RESOURCES

In school we use the Maths - No Problem! (MNP) scheme to deliver our maths curriculum to the children in Y1 to Y6. If your child is in one of these year groups then to further support their learning during school closures, we're giving you an online version of your child's MNP textbook and workbook called **Parent Guides**.

For parents & carers with a child in Y1 to Y6, we will be carrying out a parent survey to see who would like access to these materials. If you indicate on the survey that you would, then you can expect to receive an email from MNP inviting you to create a password and login for your new MNP Hub account. You'll also have an option to receive further ongoing support via email.

[www.wardleyce.co.uk](http://www.wardleyce.co.uk)

Once you're logged in, you'll be able to access maths content for your child's year group, along with help guides and lesson support. The teachers will be referencing which lessons to look at each week in their Monday blog on the class pages of the school website.

I hope you find this resource to be a good support for the children's maths work at home, and if you have any questions, please don't hesitate to get in touch with the class teacher through the website.

Many thanks for your continued support.

Yours sincerely,

Mark Foster,

Head teacher.
